The RBZ Monumental Shift...

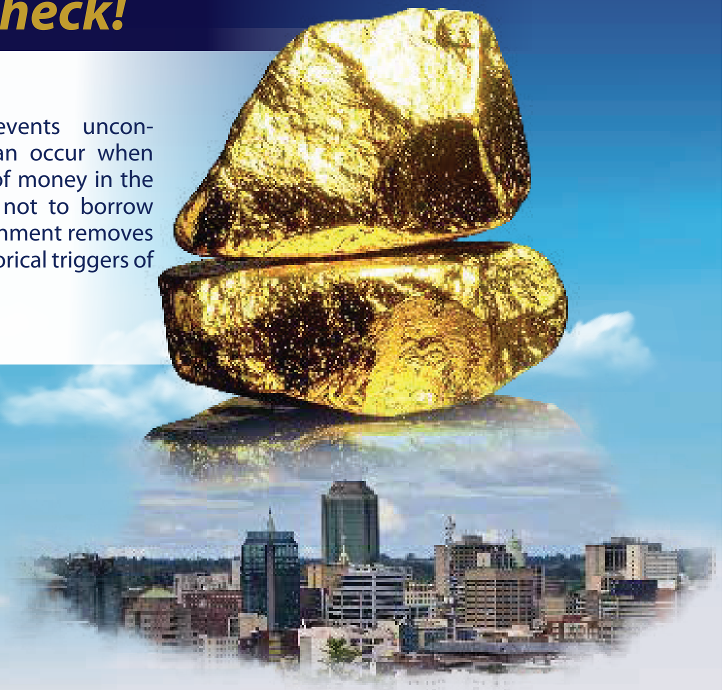
RESERVE BANK OF ZIMBABWE

Money Supply Kept Under Check!

ZiG money supply is under check due to
ZERO borrowing
from Government.

To support the RBZ and maintain stability in ZiG, the Government has pledged not to borrow from the Central Bank, as this would lead to the printing of money and excessive growth in the money supply.

This commitment prevents uncontrolled inflation that can occur when there is an oversupply of money in the economy. By pledging not to borrow from the RBZ, the government removes one of the common historical triggers of hyperinflation.



ZiG MEANS BUSINESS
