INTERNATIONAL COMMODITY PRICE DEVELOPMENTS

During the month of August 2021, international monthly average prices for gold, platinum, copper and Brent crude oil retreated, with the exception of nickel, which rather firmed.

Precious Metals

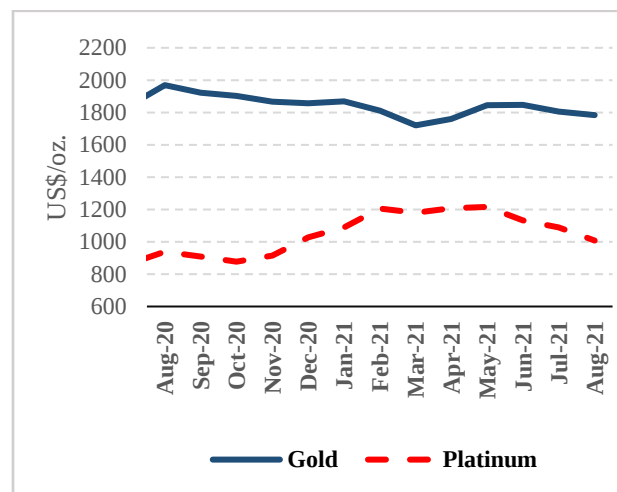

Gold

During the month under consideration, gold prices continued in the negative territory, falling by 1.2% from a monthly average of US\$1,806.45 per ounce in the preceding month of July to US\$1,784.24 per ounce in August 2021. The yellow metal's appeal was dampened by a stronger US dollar after a stronger than expected jobs report in the United States. These developments fueled speculation that the US Federal Reserve Bank will rein in its economic stimulus measures. The decline was, however, moderated by prospects of strong safe haven demand amid surging global Delta variant Covid-19 infection cases.

Platinum

Similarly, platinum prices retreated significantly during the month, shedding 7.3% from a monthly average of US\$1,088.05 per ounce in July to US\$1,008.64 per ounce during the month under review. Platinum prices were largely weighed down by weak global demand in the automotive and jewellery sectors following concerns about rising Delta variant Covid-19 cases. Figure 1 shows the evolution of precious metal prices for the period from January 2020 to August 2021.

Figure 1: Precious metal prices (US\$/oz.)

Source: Bloomberg, 2021

Base Metals

Copper

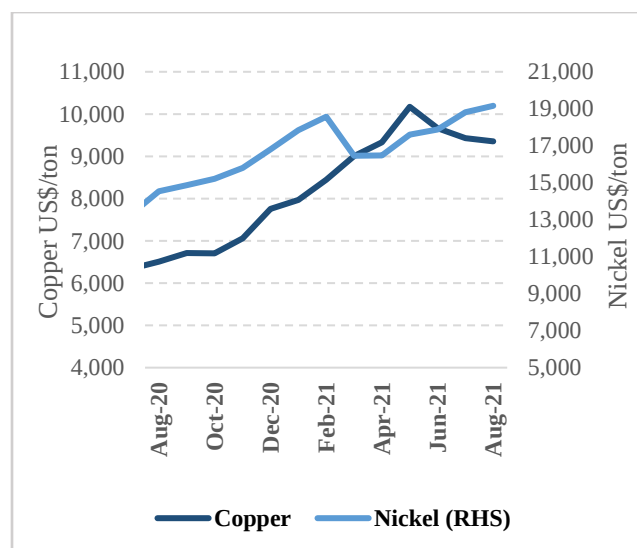

Copper prices retreated during the period under review principally weighed down by weak economic data in China, the world's largest consumer of base metals. The situation was further amplified by surging Covid-19 Delta variant infection cases, particularly in Asia, which continued to suppress demand for industrial metals. Resultantly, copper prices fell by 0.8% to a monthly average price of US\$9,357.40 per tonne compared to US\$9,433.59 per tonne recorded in the immediate preceding month.

Nickel

Nickel prices remained firm during the month under analysis, supported by a rebound in demand in the top nickel consuming sectors, namely the stainless-steel sector and Electric Vehicle battery manufacturers at a time when nickel inventories were falling across the world.

Accordingly, nickel prices rose by 1.8% to a monthly average of US\$19,160.43 per tonne from an average of US\$18,817.05 per tonne recorded in July 2021.

Figure 2: Base metal prices (US\$/ton)

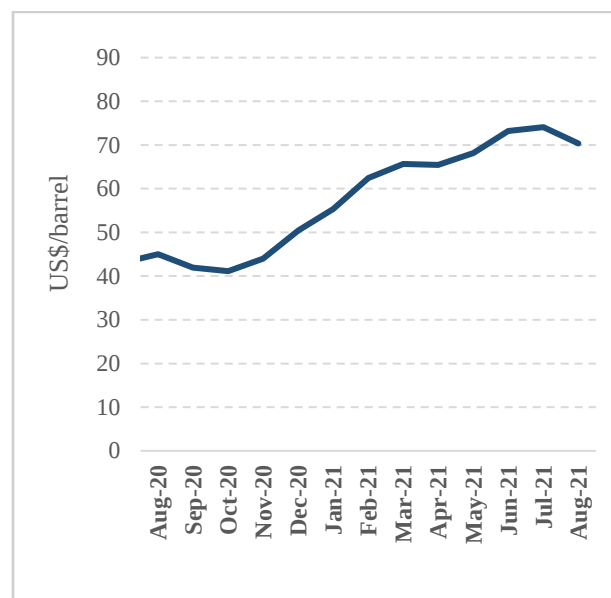

Source: Bloomberg, 2021

Brent Crude Oil

Brent crude oil price reversed course from the previous month, on fears of excess supply as the Organisation of Petroleum Exporting Countries (OPEC) increased its output at a time when countries were re-imposing travel restrictions due to increasing Covid-19 cases. In addition, crude oil prices were also pressured by a slowdown in economic activity in China, the world's biggest oil importer. Against this backdrop, crude oil monthly average prices eased immensely by 5.0%, from US\$74.07 per barrel in July to US\$70.34 per barrel in August 2021. Figure 3 shows developments in Brent

crude oil prices for the period from January 2020 to August 2021.

MONETARY DEVELOPMENTS¹

Broad money stood at ZW\$329.19 billion in August 2021, comprising of local currency transferrable deposits, 49.88%; foreign currency deposits, 40.64%, time deposits, 8.22%; currency in circulation, 0.70%; and negotiable certificates of deposits, 0.56%.

¹All monetary numbers valued in ZW\$ since the adoption of an interbank market determined exchange rate in February 2019.

Figure 4: Composition of Money Supply

Source: Reserve Bank of Zimbabwe, 2021

On a month-on-month basis, broad money declined by ZW\$1.47 billion (0.44%) from ZW\$330.66 billion recorded in July 2021. The drop in money stock was largely reflected in a decline of ZW\$7.40 billion (5.24%) in foreign currency accounts (FCA) deposits from ZW\$141.17 billion in July to ZW\$133.77 billion in August 2021. Partially offsetting this decrease, were increases of ZW\$4.02 billion (17.44%) and ZW\$1.64 billion (1.01%) in time deposits and local currency denominated transferable deposits, respectively.

Domestic claims increased by 11.40% on a monthly basis, to ZW\$207.41 billion during the month under review. The growth was largely driven by increases of 24.58% in net claims to government and 7.13% in credit to the private sector.

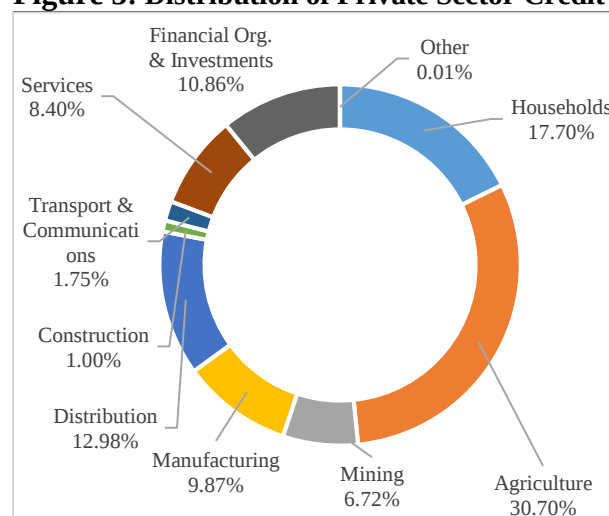

Over the year to August 2021, broad money grew by 125.24%, compared to 642.1% over the same period last year. This growth resulted from increases in net claims on Government of 226.09% and credit to private sector, by 221.25%.

Foreign currency deposits in broad money registered an annual growth of 55.53%, from ZW\$86.01 billion in August 2020 to ZW\$133.77 billion in August 2021. This was on the back of an increase in the value of FCAs, from US\$1.03 billion in August 2020 to US\$1.55 billion in August 2021. Revaluation changes, owing to the movement of the exchange rate from ZW\$83.40 per US\$1 in August 2020 to ZW\$86.06 per US\$1 in August 2021, also partly contributed to the growth in FCA deposits.

The local currency component of deposits in broad money registered an annual growth of 227.02%, while currency in circulation increased by 112.53%.

Credit to the private sector was mainly extended towards agriculture, 30.20%; households, 20.00%; distribution, 11.48%; financial organizations, 10.82%; manufacturing, 9.85%; and services, 8.43%, as shown in Figure 5.

Figure 5: Distribution of Private Sector Credit

Source: Reserve Bank of Zimbabwe, 2021

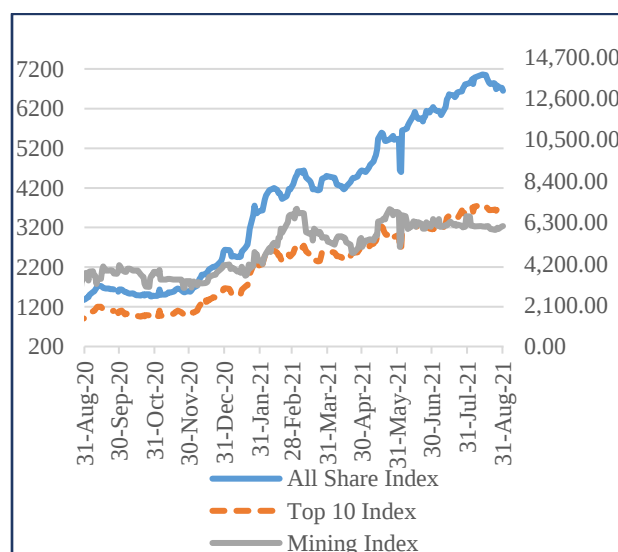

Credit to the private sector was largely channeled towards inventory build-up, 33.91%; other recurrent expenditures, 28.69%; and fixed capital investment, 18.13%.

STOCK MARKET DEVELOPMENTS

During the month of August 2021, the Zimbabwe Stock Exchange (ZSE) traded in a negative trajectory, resulting in all indices registering losses. This reversed the previous 7-month run in the ZSE.

The All Share, Top 10 and Medium Cap indices shed 2.43%, 1.23% and 3.99% to close at 652.31 points, 3 595.05 points and 17 031.57 points, respectively. The resource index lost 7.63% to close at 6 115.85 points.

Figure 6: Zimbabwe Stock Exchange All Share and Top 10 Indices

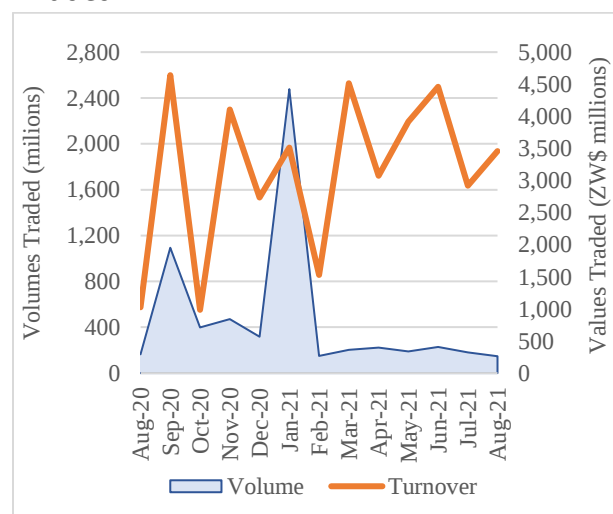

Source: Zimbabwe Stock Exchange, 2021

During the period under analysis, trading activity was concentrated in some selected

heavyweight counters. As a consequence, cumulative value of shares traded increased by 18.34% to ZW\$3.46 billion despite an 18.66% decline in turnover volume, amounting to 147.23 million shares.

The proportion of foreign purchases, to the value of shares traded fell to 5.15%, compared to 7.70% in July 2021. Net foreign position, however, improved to negative ZW\$69.24 million, from negative ZW\$232.85 million recorded during the previous month.

Figure 7: ZSE Monthly Volumes and Values Traded

Source: Zimbabwe Stock Exchange, 2021

As a result of subdued trading activity, the ZSE lost ZW\$11.61 billion, or 1.44% worth of capitalization, to close at ZW\$792.29 billion as at end-August 2021.

INFLATION OUTTURN

Annual Inflation

Annual inflation declined from 56.37% in July 2021, to 50.25% in August 2021. Both food and non-food inflation registered declines.

The stability in the annual inflation rate is partly attributable to the successful management of reserve money growth under the Monetary Targeting framework.

Annual food inflation slowed down to 50.47% in August 2021 from 55.09% in July 2021. Non-food inflation also decelerated to 50.07% in August 2021 from 57.33% in July 2021.

The decline in year on year inflation partly reflects the dissipation of the base year effects.

Annual blended inflation² decelerated to 21.50% in August 2021 from 21.61% in July 2021.

Monthly Inflation

The ZW\$ monthly inflation accelerated to 4.19% in August 2021 from 2.56% in July 2021, on account of both food and non-food inflation.

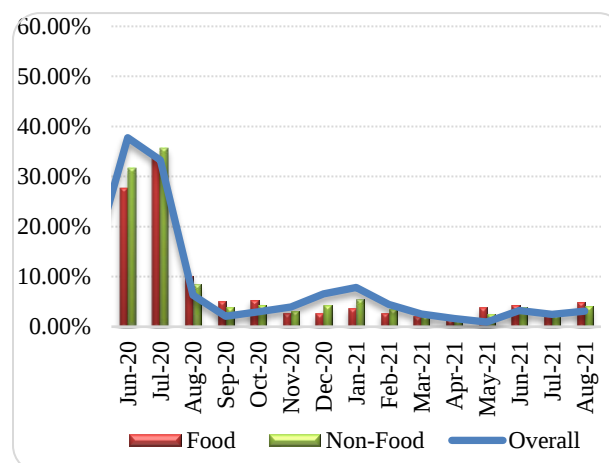

Monthly food inflation increased from 2.51% in July 2021 to 3.19% in August 2021, due to price increases in the majority of food categories among them, meat, vegetables, bread and cereals.

²The Zimbabwe National Statistical Agency (ZIMSTAT) commenced publication of the blended CPI inflation in June 2020. The blended CPI inflation combines the average changes

Non-food inflation increased from 2.60% in July to 4.95% in August 2021.

The increase in ZWL monthly inflation also reflected the benchmarking of prices using the parallel market exchange rate.

Figure 8: Month-on-Month Inflation (%)

Source: ZIMSTAT, 2021

Monthly blended inflation increased to 1.32% in August 2021 from 0.67% in July 2021, reflecting increases in both food and non-food inflation.

NATIONAL PAYMENTS SYSTEM

During the month of August 2021, transactions processed through the National Payments System (NPS) were 6.77% higher to close at ZW\$673.27 billion. The volume of NPS transactions increased from 120.96 million in July 2021 to close at 122.45 million during the month under review.

in price of goods and services sold in the two main currencies in circulation, namely the ZW\$ and the US\$.

Zimbabwe Electronic Transfer Settlement System (ZETSS)

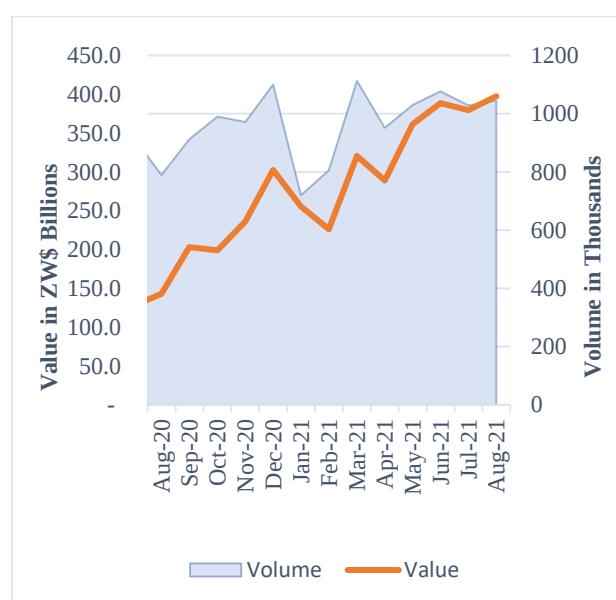

The value of Real Time Gross Settlement System (RTGS) transactions at ZW\$397.54 billion was 4.71% higher compared to ZW\$379.66 billion registered in the previous month. RTGS transaction volumes rose by 1.64% to close at 1.05 million during the same month.

Card Based Transactions

Card-based transactions closed the month under review at ZW\$56.71 billion, reflecting a 17.42% increase from ZW\$48.30 billion registered in the previous period.

RESERVE BANK OF ZIMBABWE

Figure 9: ZETSS Volumes and Values

Source: Reserve Bank of Zimbabwe, 2021

Cash Transactions

Cash based transactions stood at 13.53 billion in 2021 from ZW\$13.57 billion in the previous month.

Mobile and Internet Based Transactions

Mobile and internet-based transactions amounted ZW\$219.02 billion during the month of August 2021.

Source: Reserve Bank of Zimbabwe, 2021

Notes:

- Depository corporations survey - formerly Monetary Survey.
- Broad money redefined using IMF's Monetary and Financial Statistics Manual of 2000. Major changes include exclusion of Government deposits held by banks from broad money.
- Transferable deposits made up of demand and savings deposits.
- NCDs are also referred to as securities included in broad money.
- All classes of time deposits, short and long term are classified as time deposits, which are also termed other deposits.
- Credit to the private sector now excludes claims on other financial corporations, as well as claims on state and local government (local authorities)
- Depository corporations made up of the Central Bank and other depository corporations
- Other depository corporations (ODCs) - Commercial banks, merchant banks, building societies and POSB.
- In December 2017, the statistics were adjusted in retrospect by reclassifying Securities issued under Afrades from claims on government to claims on central bank
- In December 2017, the statistics were adjusted in retrospect by reclassifying amounts accessed by banks under the Afrades from liabilities to Other Depository corporations and Other Financial Corporations to liabilities to Central Bank
- In December 2018, statistics were revised from November 2017 due to reclassification of lines of credit (foreign liabilities) that were initially classified as deposits included in broad money
- All monetary and financial statistics are valued in ZWL\$ since the introduction of the interbank foreign exchange market in February 2019
