INTERNATIONAL COMMODITY PRICE DEVELOPMENTS

During the month of June 2022, international monthly average commodity prices for gold, platinum, palladium, copper, and nickel declined. Brent crude oil prices, however, firmed during the same month. Commodity markets were, to a large extent, influenced by a stronger US dollar and the Covid-19-induced lockdowns in China, the world's largest metal consumer.

Precious Metals

Gold

On a month-on-month basis, gold prices retreated by 0.8%, from a monthly average of US\$1,849.84 per ounce in May 2022 to US\$1,835.81 per ounce in June 2022. Prices decreased following a stronger US dollar and higher Treasury yields. These developments prompted investors to shift to interest-bearing assets.

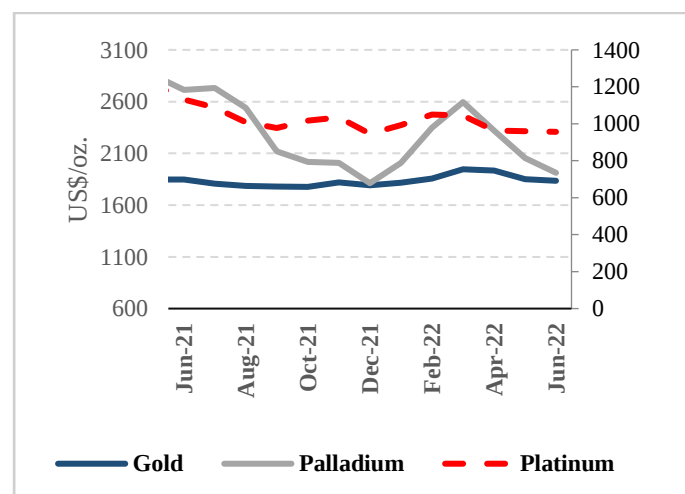

Platinum

Platinum prices marginally declined by 0.4%, from a monthly average of US\$959.81 per ounce in May 2022 to US\$955.98 per ounce in June 2022. The sluggish demand for industrial metals, particularly in China, due to new Covid-19 restrictions, exerted downward pressure on prices. Furthermore, the shortage of chips and disruptions in the supply of automotive parts due to geopolitical tensions, negatively affected the demand for the metal.

Palladium

Palladium prices declined by 6.9%, from an average of US\$2,005.05 per ounce in May 2022 to US\$1,912.52 per ounce, during the month under review. The decline was underpinned by a strengthening US dollar and tighter monetary policy implemented by the US Federal Reserve and other major central banks, to contain global inflation. Figure 1 shows the evolution in precious metal prices for the period from June 2021 to June 2022.

Figure 1: Precious Metal Prices (US\$/oz.)

Source: Bloomberg, 2022

Base Metals

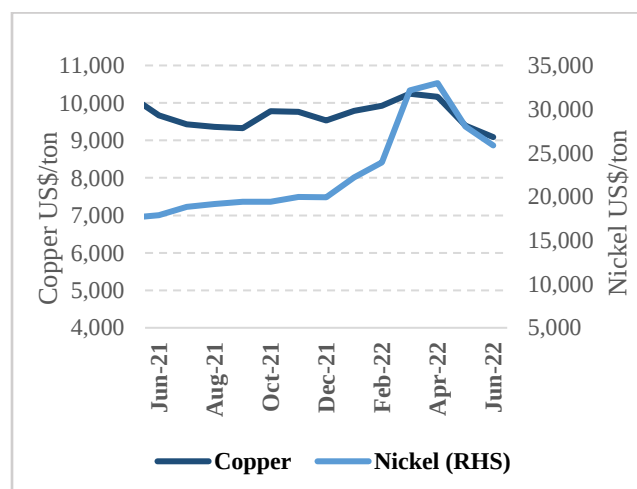

Copper

Copper prices weakened amidst uncertainty around demand in China, the top consumer of the base metal. Renewed outbreaks of Covid-19 in China cast doubt on the recovery of economic activity, on the back of lockdowns. Prices declined by 3.2%, from US\$9,391.39 per tonne in the previous month to US\$ 9,088.63 per tonne, during the reporting month.

Nickel

During the month under review, nickel prices sharply retreated by 7.8%, from a monthly average of US\$28,025.52 per tonne recorded in May to US\$25,847.48 per tonne. The decline was on account of fears that a potential global recession and resurgent coronavirus outbreaks in top consumer, China, could further adversely affect the demand for the base metal. Figure 2 shows developments in base metal prices for the period from June 2021 to June 2022.

Figure 2: Base Metal Prices (US\$/ton)

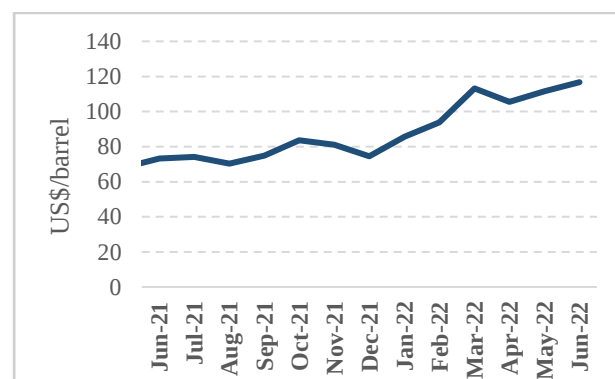

Source: Bloomberg, 2022

Brent Crude Oil

Monthly average Brent crude oil prices increased by 4.6%, from US\$111.59 per barrel in May 2022 to US\$116.74 per barrel, during the month under review. The bullish run was sustained as investors faced a tightening global market and expectations of improved demand from China. Consumption from the top importer, China, was expected to rise following

the lifting of Covid-19- induced restrictions. The recovery, however, was expected to be bumpy, amid the potential risk of renewed lockdowns in the East Asian economy. Prices were further boosted by reports that U.S. crude oil inventories had fallen by more than expected margins. Figure 3 shows developments in oil prices for the period from June 2021 to June 2022.

MONETARY DEVELOPMENTS¹

Broad money (M3) stock stood at ZW\$1,119.70 billion in June 2022, compared to ZW\$971.54 billion recorded in the previous month. The money stock was largely composed of foreign currency deposits, 58.76%; and local currency deposits, 40.93%. Currency in circulation constituted 0.31% of total money supply. Figure 4 shows the composition of money supply.

¹All monetary numbers valued in ZW\$ since the adoption of an interbank market determined exchange rate in February 2019.

Figure 4: Composition of Money Supply

Source: Reserve Bank of Zimbabwe, 2022

Month-on-month, broad money increased by 15.25%, largely reflecting an increase of 17.66% in the foreign currency deposits equivalent, from ZW\$559.14 billion in May 2022 to ZW\$657.89 billion in June 2022. The increase was on the back of exchange rate depreciation. Over the same period, the local currency component of broad money increased by 11.98%.

During the month under review, net domestic claims increased by 14.32%, to ZW\$767.81 billion. The growth was largely due to increases of ZW\$98.35 billion and ZW\$8.1 billion in credit to the private sector and public non-financial corporations. Partially offsetting the increase was a ZW\$11.09 billion decline in net claims on Government.

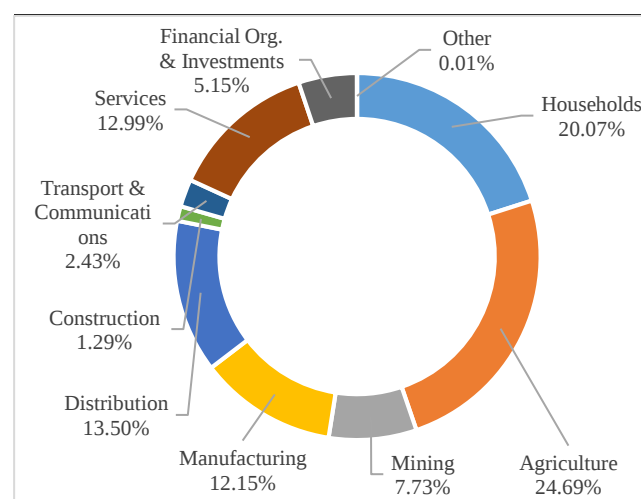

On an annual basis, broad money registered a growth of 269.62%, largely driven by the exchange rate revaluations over the year. The auction rate moved from ZW\$85.42/US\$ in June 2021 to ZW\$370.96/US\$ in June 2022, resulting in growth of the Zimbabwe dollar equivalent of FCA deposits, from ZW\$133.60 billion in June 2021 to ZW\$657.89 billion in

June 2022. The local currency component of broad money also grew by 172.77% over the same period.

The annual growth in broad money was largely driven by increases of 438.39%; 351.69% and 342.21% in public non-financial enterprises, credit to the private sector, and net claims on Government, respectively. Credit to Government was mainly in the form of Treasury bill holdings by banks.

Credit to the private sector was mainly channeled to agriculture and households, which received 24.69% and 20.07% of the total credit, respectively. The distribution and manufacturing sectors received 13.50% and 12.15%, respectively. Private sector credit shares for the rest of the economic sectors are shown in figure 5

Figure 5: Distribution of Private Sector Credit

Source: Reserve Bank of Zimbabwe, 2022

Credit to the private sector was largely channeled towards inventory build-up, 33.60%; other recurrent expenditures, 30.78%; and fixed capital investments, 16.44%.

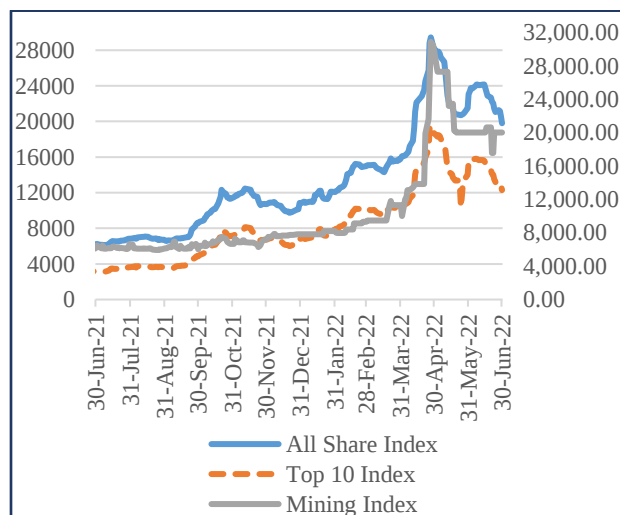

STOCK MARKET DEVELOPMENTS

ZIMBABWE STOCK EXCHANGE (ZSE)

During the month of June 2022, the Zimbabwe Stock Exchange (ZSE) exhibited mixed trading sentiments. Resultantly, the Top 10, Top 15 and All Share indices declined by 19.97%, 18.00% and 14.22% to close the month at 12 273.75 points, 13 721.95 points and 19 791.94 points, while the Small and Medium Cap indices gained by 8.19% and 5.29% to close at 513 602.97 points and 39 627.35 points, respectively.

The resources index, however, remained unchanged at 20,021.24 points, during the month under analysis.

Figure 6: Zimbabwe Stock Exchange All Share and Top 10 Indices

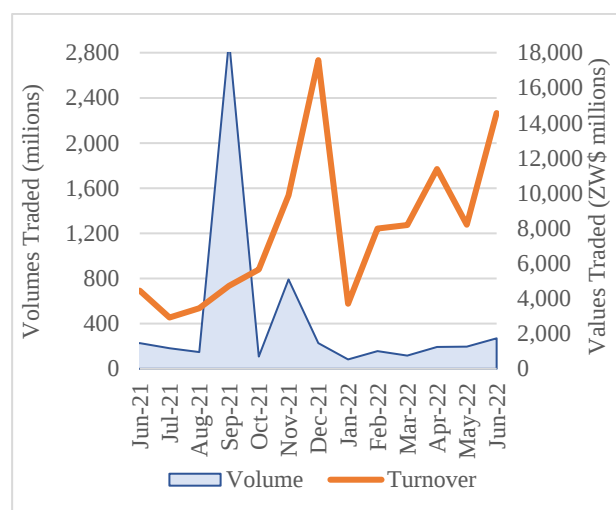

Source: Zimbabwe Stock Exchange, 2022

The cumulative value and volume of shares traded on the ZSE in June 2022 rose by 77.44% and 38.75%, from ZW\$8.21 billion and 195.48

million shares in May 2022 to ZW\$14.57 billion and 271.22 million shares, respectively.

The proportion of foreign purchases to the value of shares traded declined to 2.20%, compared to 2.25% recorded in May 2022. The net foreign position for the ZSE also worsened to -ZW\$2.68 billion, from -ZW\$1.3 billion recorded in the previous month.

Figure 7: ZSE Monthly Volumes and Values Traded

Source: Zimbabwe Stock Exchange, 2022

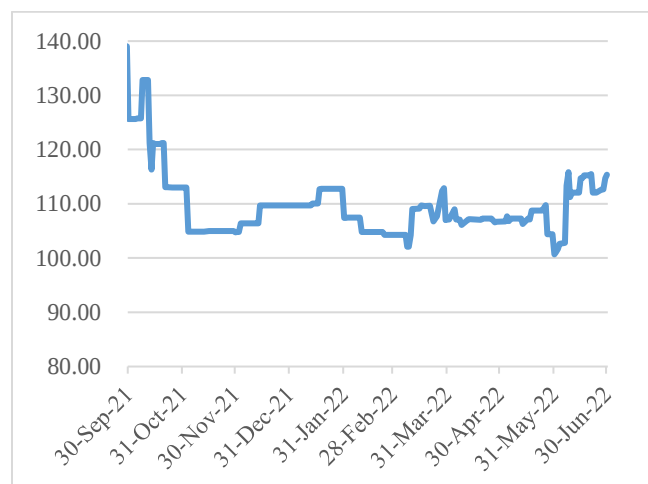

During the month under analysis, the ZSE lost ZW\$453.85 billion, or 15.69% worth of capitalization to close at ZW\$2 439.17 billion.

VICTORIA FALLS STOCK EXCHANGE (VFEX)

In June 2022, the Victoria Falls Stock Exchange (VFEX) recovered from losses realised in the previous month, with the VFEX All Share Index adding 14.62% to close at

115.39 points, from 100.67 points recorded in the prior month.

Figure 8: Victoria Falls Stock Exchange All Share Index

Source: Victoria Falls Stock Exchange (VFEX), 2022

Market Capitalization

The VFEX market capitalization rose by US\$34.89 million, or 14.64% to close at US\$0.27 billion in June 2022, compared to US\$0.24 billion recorded in the previous month.

INFLATION OUTTURN

Annual Inflation

Headline inflation stood at 191.57% in June 2022, up from 131.74% in May 2022.

The rise in inflation continued to be underpinned by the softening of the Zimbabwe dollar and speculative pricing, on the back of negative inflationary expectations. The pass

through of global inflation to domestic prices also had a significant impact on inflation.

Annual food inflation increased from 154.57% in May 2021 to 224.80% in June 2022. This was spurred by rising global food inflation, particularly on grain and edible oils, compounded by domestic supply shortfalls. Bread and cereals, vegetables and meat had the largest contribution to annual food inflation in June 2022.

Annual non-food inflation also rose from 114.79% in May 2022 to 167.17% in June 2022. Miscellaneous goods and services; transport; and housing water electricity gas and other fuels continued to have the largest contribution to annual non-food inflation during the month.

Annual blended inflation² rose from 50.53% in the previous month to 70.02% in June 2022, largely driven by the rise in blended food inflation.

Monthly Inflation

Monthly inflation increased by 9.73 percentage points, from 20.97% in May 2022 to 30.70% in June 2022, largely driven by non-food inflation.

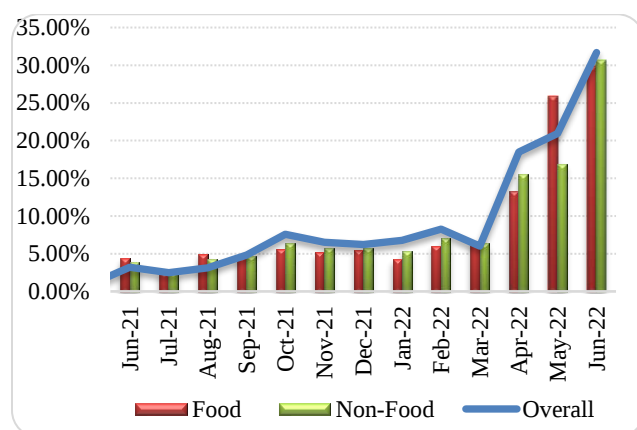

Monthly non-food inflation rose from 16.91% in May 2022 to 29.83% in June 2022. Housing, water, electricity gas, and other fuels; transport; and miscellaneous goods and services, had the largest impact on monthly non-food inflation in the month under analysis.

²The Zimbabwe National Statistical Agency (ZIMSTAT) commenced publication of the blended CPI inflation in June 2020. The blended CPI inflation combines the average changes

in price of goods and services sold in the two main currencies in circulation, namely the ZW\$ and the US\$.

Similarly, monthly food inflation rose from 25.95% in May 2022 to 30.70% in June 2022, driven by bread and cereals, vegetables, and meat sub-categories. Figure 9 shows the month-on-month inflation profile.

Figure 9: Month-on-Month Inflation (%)

Source: ZIMSTAT, 2022

Monthly blended inflation rose from 8.68% in the previous month to 18.02% in June 2022. This was on account of increases in both food and non-food inflation.

NATIONAL PAYMENTS SYSTEM

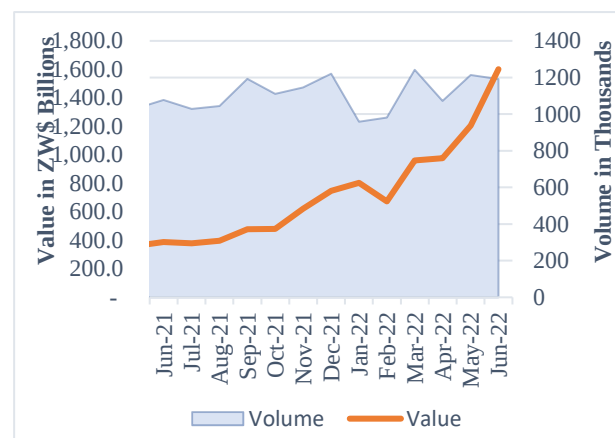

The value of NPS transactions stood at ZW\$2.5 trillion in June 2022, up from ZW\$1.91 trillion in the previous month. NPS transaction volumes, however, declined by 6% to 94.31 million in the same month.

Zimbabwe Electronic Transfer Settlement System (ZETSS)

Transactions processed through the RTGS system amounted to ZW\$1,601.23 billion in June 2022, up from ZW\$1,205.99 billion in May 2022. RTGS transaction volumes,

however, declined by 1.65% and closed the month under review at 1.19 million.

Figure 10: ZETSS Volumes and Values

Source: Reserve Bank of Zimbabwe, 2022

Cash Transactions

The value of cash-based transactions increased to ZW\$73.50 billion during the month of June 2022, from ZW\$55.04 billion in the previous month.

Mobile and Internet Based Transactions

Mobile and internet-based transactions posted a significant increase of 28.8% to ZW\$742.07 billion in June 2022, from ZW\$576.07 billion in May 2022.

Card Based Transactions

Card-based transactions increased by 23.16% to ZW\$153.36 billion in June 2022, from ZW\$124.52 billion in May 2022.

Source: Reserve Bank of Zimbabwe, 2022

Notes:

- Depository corporations survey - formerly Monetary Survey.
- Broad money redefined using IMF's Monetary and Financial Statistics Manual of 2000. Major changes include exclusion of Government deposits held by banks from broad money.
- Transferable deposits made up of demand and savings deposits.
- NCDs are also referred to as securities included in broad money.
- All classes of time deposits, short and long term are classified as time deposits, which are also termed other deposits.
- Credit to the private sector now excludes claims on other financial corporations, as well as claims on state and local government (local authorities)
- Depository corporations made up of the Central Bank and other depository corporations
- Other depository corporations (ODCs) – Commercial banks, merchant banks, building societies and POSB.
- In December 2017, the statistics were adjusted in retrospect by reclassifying Securities issued under Afrades from claims on government to claims on central bank
- In December 2017, the statistics were adjusted in retrospect by reclassifying amounts accessed by banks under the Afrades from liabilities to Other Depository corporations and Other Financial Corporations to liabilities to Central Bank
- In December 2018, statistics were revised from November 2017 due to reclassification of lines of credit (foreign liabilities) that were initially classified as deposits included in broad money
- All monetary and financial statistics are valued in ZWL\$ since the introduction of the interbank foreign exchange market in February 2019
